Subject: RE: Publication of Bounding Scenarios Report & Registration for Feb. 6th Nutrient forum Meeting
Date: Wednesday, January 30, 2019 10:07:22 AM

Ben, I would like to join you. This work relates to the NWEA NPDES withdrawal petition. We have our petition to consider and Ecology has 2 more recent related NWEA petitions that they have responded to. [NPDES withdrawal petition](#) (2/13/17) to EPA and 2 related NWEA petitions to Ecology [[Puget Sound Nitrogen TMDL](#) (10/10/17), [AKART Petition](#) aka TBELs for Nutrient (11/14/18)]

In any case, the work Ecology is doing as part of the Nutrient Forum is integral to the NWEA petition to EPA. On the agenda at 1:00 pm is the AKART Petition.

KAREN BURGESS, P.E.

State Oversight Lead

NPDES Permits Unit - EPA Region 10

Dave, Rochelle & Miranda, Karen, Peter

Ben is tentatively planning to attend the Feb 6th Puget Sound nutrient forum meeting next week. Is anyone in OW planning to attend, do you know?

Thanks,

Laurie

Subject: Publication of Bounding Scenarios Report & Registration for Feb. 6th Nutrient forum

Meeting

Ecology has published the Bounding Scenarios Report, which presents results of the first round of Salish Sea modeling. This report is a starting place for the [Nutrient Forum](#) to discuss what we learned from this first round of scenarios and begin capturing ideas for new scenarios to test in the coming months.

The Bounding Scenarios Report can be found on [Ecology's website](#)

We will discuss the bounding scenario report and results at our **next Nutrient Forum Meeting on Feb 6** held at the Red Lion Hotel Seattle Airport ([18220 International Blvd, Seattle WA](#)). You will have an opportunity to ask the modelers questions and provide feedback to us. If you plan to attend in person or by webinar, [please register for the Forum](#).

In addition, we recently received a petition for rulemaking that relates to municipal wastewater treatment plants in the Puget Sound basin. Because of its relation to the Puget Sound Nutrient Forum work, we want to share Ecology's response to the petition with Forum participants and will build time into the Feb 6 meeting to discuss Ecology's actions on the petition.

Links to the original AKART petition and the response from Ecology's Director Maia Bellon are included in the [draft agenda for the Nutrient Forum](#).

Questions about the Forum, please contact:
